

Nehemiah Christian Academy is a Cedar Hill, TX based educational facility that offers educational services for a wide variety of subjects. Nehemiah Christian Academy has identified several target market segments nationwide that will be pursued by its online academy as well as a homeschool cottage school at its home base. This is the largest segment in the Dallas County Tri-City area, which include the following cities; Duncanville, Cedar Hill, Lancaster and Desoto, TX. We also service the Dallas metro-plex.

Nehemiah Christian Academy provides tutoring services in quantitative courses that focuses primarily on students in 3rd through 12th grade. Classes are available in the core courses including: English, Math, Science, Social studies and Bible. Various elective courses are also available. Tutoring services are available to students in GED, TAKS, ACT and SAT testing. Co-op classes will also be available for homeschool students that do not attend our school. Classes are self directed with the assistance of a facilitator and students learn at their own pace. This allows students to grasp the concepts they will need to know to perform well in their class, as well as developing study strategies to effectively prepare for exams. An IEP or individual learning plan incorporated with parent involvement and the long-term focus of empowering students is favored over a short-term problem-solving strategy.

Mission Statement:

To rebuild the "walls of faith" to students whose doors and gates have been closed; that no gap in their lives remain unfinished that have not yet been repaired. We at Nehemiah Christian Academy are doing a great work and we will not stop until the appointed time set by our creator.

Vision Statement:

To pray continuously for strength to break down the patterns of life of each and every student they could not break or resolve alone. To restart the work that was stopped through opposition, oppression, depression and intimidation.

Memory Verse: Nehemiah 6:14
